

actiu EXPRESS

Architecture, Innovation and Sustainability

A high investment in research and development, and leading design collaborations with designers such as Marcelo Alegre of Alegre Industriel and Lledó & Campos, have ensured ACTIU a leading position worldwide in commercial furniture, winning many international product design awards.

The ACTIU technology centre is an award winning 200.000 m² state of the art manufacturing facility built in 2008 on the philosophy that environmentally sustainable manufacturing is possible and profitable. ACTIU employs large scale energy-efficient technologies including the largest industrial solar panel installation in Europe, water recycling, CO₂ emission minimisation and recyclable material selection across all products and production processes.

ACTIU have gained US Green Building Council recognition in 2011 when awarded coveted Gold LEED status, reinforcing the company as a worldwide environmental leader.

ACTIU exports to over 60 countries worldwide with a high quality range of Spanish designed and manufactured loose furniture .

actiu EXPRESS

A quick two week turnaround service for highly popular ACTIU products in standard colours. Workstations. Tables (fixed/ folding). Chairs (task, breakout, meeting, hospitality).
