alupro

designed by burgtec

Specifications

Alupro by Burgtec enables you to adjust your working area from a standard desk height of 720mm to a maximum of 1210mm, by the simple push of a button. This desk adjusts between sitting and standing positions, and offers a more flexible working position and adds value to your furniture. The integrated system is equipped with Electronic Overload Protection, eliminating the risk of a motor burn-out or electrical damage.
