

Sintesi expresses design simplicity through its flexible steel framework .

Immediate advice, local lead times and our great service mean that you can specify Sintesi with confidence.

# Sintesi

Designed by a leading Italian manufacturer & delivered by Commercial Images, Sintesi is the definitive value workstation system.

Who said that creativity can only be expressed in a cluttered and confused setting? Sintesi sets the scene for true creativity to thrive in an organised 'yet' informal environment.

Sintesi is what you want it to be – a single desk or a configuration of multiple workstations. The system has been conceived and built from the ground up to provide the ultimate balance between shared and personal work space.

Sintesi's minimalist lines are truly inspirational. The structure of the system creates a sense of openness and space and its steel construction allows complete rigidity through long spans.

# Sintesi

You can't help but be impressed with the quality and strength of Sintesi's steel frame. It's easy to install and can be configured to suit any space and work style.

Why is classical design good for the environment? - because everyone will be compelled to maintain, add to, reconfigure and relocate every part of this system.
